Andrew Rosafort, Road Foreman

Robert Mascianica, Deputy Commissioner
William Nickson, Water Foreman

Notice - Public Information Meeting
Bedford Center Road Paving and Shoulder Widening

The County of Westchester and Town of Bedford are planning pavement replacement and shoulder widening on Main Street and Bedford Center Road. The contract will be issued and administered by Westchester County. After completion of the work, maintenance responsibility of the road will be transferred to the Town. Pavement replacement will occur from Adams Street to Succabone Road. In accordance with the strategy identified in the Town's Comprehensive Plan, available at www.BedfordNY.info, the project design includes an expanded paved shoulder for use by bicyclists and other non-vehicle uses. Shoulder widening will occur from Springhurst Road to Route 22. Shoulders are planned to be widened from an existing minimum of approximately two feet to a new dimension of four feet. In addition, several portion of the road with drainage problems will be improved. The County has identified six trees that will be removed due to their deteriorated condition and/or proximity to the work.

You are encouraged to attend the public information meeting which will be held on June 30, 2009 at 7:30 PM at the Bedford Town House, 321 Bedford Road, Bedford Hills. At the meeting, the County and Town will review the project goals and design, and address any questions.

Please contact Kevin Winn, Bedford Commissioner of Public Works, at 666-7669 with any questions.
