Deer Management Permits – first come, first serve - **\$10.00** – these no longer come free with your Sportsman license.

A new category for fishing has been added – marine fishing - \$10.00 so please be sure to let us know when you get your license what type of fishing you'll be doing.

Landowners – remember that you need to provide us with your SWIS code and tax ID for your property and only one landowner of a parcel is entitled to these privileges.

The Department of Environmental Conservation tells us that they've also made it easier to purchase licenses on line for both new and existing customers at the DEC website www.dec.ny.gov.

We look forward to seeing our hunters and a safe hunting season.
