

WATER MAIN BREAK – BEDFORD CONSOLIDATED WATER

Monday, August 30, 2010 5:45PM

Residents of Bedford Hills and Katonah in the Town of Bedford are advised to boil their water before drinking it, as a precaution and until further notice, due to low or no water pressure throughout the Bedford Consolidated Water District resulting from a major water main break. Bring water to a full rolling boil for at least 1 minute.

The water department has not located the water main break at this time. Updates on locations of the break and repairs will be posted on the website as they become available.

Water tankers are located at the end of Cottage Terrace, in the wide section of Lakeside Drive, and in the parking lot at 425 Cherry Street for residents to fill up water bottles or jugs until water service is restored. Bring empty containers with you.

If you or anyone you know is homebound. Please contact us at 666 7855 with their information.

If any residents see water surfacing, please contact the Water Department immediately at 666 7855.
